New starting February 2020: Webb Visit app

Starting February 2020, the Juno Beach Centre visitors can discover the museum in French, English, Dutch and German.

Until today, the circuit of the Juno Beach Centre was bilingual French/English. The main displays are now available in Dutch and German via Webb Visit, a new QR code app developed by Twelve Solutions. This app also allows visitors to discover additional historical information about objects, veterans, etc.

How it works
Thanks to the Wivi system present in each room of the museum, visitors can access additional content using their smartphones without downloading an application. Visitors can connect to the Webb Visit by scanning the QR codes in each room or by visiting www.webbvisit.com.

The Dutch represent the 2nd highest nationality among tourists in Normandy. Germans are positioned in 4th. 2020 marks the 75th anniversary of the liberation of the Netherlands, to which Canadian troops made a significant contribution. With Webb Visit, the Juno Beach Centre aims to improve its offer for Dutch visitors, who will discover the shared history of Canada and the Netherlands.
